

WATT PRINGLE CONSULTING

MICRO BIOLOGICAL TESTING AND ANALYSIS

Is Micro Biological testing costing you too much?

Do you need accurate and traceable testing of your hygienic status?

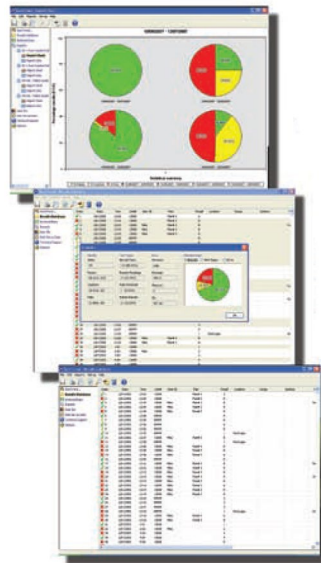

Do you need instant test results and staff training following any non-conformities?

Watt Pringle Consulting offers microbiological service testing with immediate results on site.

Our data analysis reporting and trending statistics, will give you a full report within 24 hours.

Simple, precise and affordable results in seconds

Our hygiene monitoring system measures cleanliness and verifies efficiency of cleaning chemicals and materials used.

Once you have your detailed report, Watt Pringle Consulting will create solutions for immediate corrective action and offers full training to staff.

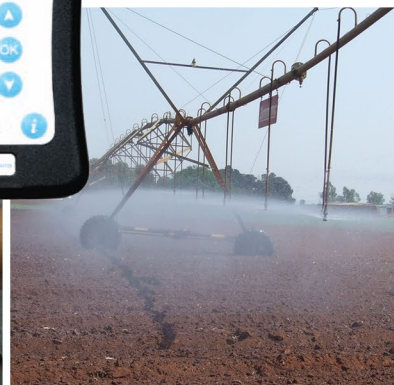

We use the most cost effective internationally and locally accepted ATP tester and check Pathogens on all surfaces and in water .

*Improve your Sanitation
Quality and Safety*

Minimise rejection and avoid recalls, by implementing our training programme to ensure compliance.

SIMPLE · PRECISE · AFFORDABLE
